MAGAZINE FOR THE LUXURY LIFESTYLE™

Of Note

The Faena Hotel Buenos Aires isn't just a hotel, it's an avant-garde universe where art, architecture, gastronomy and entertainment intersect. Resuscitating Puerto Madero, an abandoned port area in Buenos Aires, the Faena District has become the paragon for urban resorts that positively influences people's lives. Blending lush red velvet with Belle Époque glamour in luminous spaces, Faena's 105 rooms and suites are havens of contemporary comfort. The Spa nurtures an overall sense of calm with globally inspired holistic therapies. Epicures and oenophiles are spoiled with a 4,000-bottle wine list, haute Argentine cuisine at Bistro Sur, estancia-style barbecues at El Mercado and private dining in The Cellar. The Library Lounge and Poolbar draw fashionable crowds day and night, while El Cabaret's *Rojo Tango* show seduces audiences weekly. Interactive art installations at the Faena Arts Center promote creativity and community, igniting the type of transformative cultural exchange that makes travel so exciting.
